
Download Zmodeler 2.2.4 Full Version EXCLUSIVE

Mar 28, 2020 I've updated the program with the following major improvements and bug fixes: 32-bit version: New 32-bit and 64-bit versions of Zmodeler - no old version of Zmodeler will be compatible with 32-bit version. Launcher structure optimized

Support for 64-bit Windows versions Optimized to save memory 64-bit version: Deleted the dependency on Visual C++ Redistributable Package (VCRedist) 2012 Now Zmodeler is not dependent on VCRedist. Fixed the HID problem of some 64-bit users. Fixed the bug that both 32- and 64-bit versions of Zmodeler did not run at the same time. White (incompatible with version 2.2.4) 64-bit version: Fixed the bug that 64-bit users had to select the English language in Zmodeler's main window.

Fixed the bug that the original "airplane" folder structure that Zmodeler saves in the program folder is not automatically recreated. 23 Mar, 2020 UPDATE 1: Updated ZModeler 2.2.4: Fixed the bug that the original "airplane" folder structure that Zmodeler saves in the program folder is not automatically recreated. Improved the construction of models' parameters' names. Fixed the bug that the scaled view of 3D models was not centered in the screen. UPDATED: Zmodeler doesn't need VCredist package anymore! Thanks to @DazuNawaz and @ruka77 for pointing it out and thanking @levi-o. Updated ZModeler 2.2.4:

Fixed the bug that the original "airplane" folder structure that Zmodeler saves in the program folder is not automatically recreated. Improved the construction of models' parameters' names.
